

ATTENTION: COVID SCREENING

required For Contractors and Service Providers

All contractors and service providers attending or working inside our building (including in the units) must be screened for COVID-19 before they enter the building. This screening must be done every day that you attend our site.

Please complete the online screening process by pointing your smart camera at the QR Code to the right.

Your answers will be sent to our property manager. You will also get a copy of it by email.

Please do NOT enter our building if you have any of the COVID symptoms or if you have answered “YES” to any of the questions in our Screening Form.

Owners/occupants/visitors

Actively monitoring your symptoms and self-screening is a useful precaution to be taken by all. Owners, occupants, and visitors can also screen themselves, if they wish, using the same online screening tool. Just make sure you indicate your unit number as the unit visited and write “self screening” under the purpose of the visit.
